

Hi Ian,

I hope you are doing well. As promised, here is a reference letter you can use below...so sorry it took this long to send it to you. I truly hope it helps with your career. Wishing success to you in this new year. Thanks again for all your help for Julian (he's due home on January 15th-after 60 days clean...hoping for the best in his recovery).

**January 10, 2013**

**To Whom It May Concern,**

**I had recently contacted Ian Cunningham for an Intervention service for my teenage son. Ian interventions skills were extremely helpful. He spoke with me at length and took an interest right away in understanding the serious situation with my son's substance abuse. Ian was very professional and courteous. Ian's own experiences in his life brought a deeper empathy and compassion to what I was going through with my son. During the intervention, I found Ian to be supportive and sensitive to my son's situation. Ian connected well with my son and helped him to understand the seriousness of his disease of substance abuse. Ian's personality was just the "guiding light" my son needed to recognize that he should go into a residential program for help for his substance abuse. Ian has kindly followed up since the intervention several times to check in on how my son is doing. I highly recommend Ian Cunningham as a professional Interventionist for anyone that is looking for true caring support and help in a substance abuse crisis.**

**Sincerely,  
Candee Braunstein**
