

Hello ,

I just wanted to tell you, I just got off the phone with a new client. Wow, you did it again. She just cannot say enough about you. You did a great job. You are going to make it hard for me to ever refer any other Interventionist.

I want you to know that we all have noticed the work you are doing, especially me. But our clients are coming into the program in a different space. They aren't mad or afraid when they get here. Our parents are thrilled with your service and they have made a point to let me know. I should be the one sending you flowers. Lol. Thanks again for the awesome work you do!!!!

This is truly your calling!!

Sincerely,

Admission Counselor
