

Ian,

Mean every word. Thanks again,

Let me know what you think:

My son was suffering. He was volatile, had refused treatment and his symptoms were worsening. We knew he needed help but we couldn't get him to accept it even after months of arguing and pleading. We called Ian. From the start he was professional, responsive and experienced. He prepared us for the transport beforehand and kept us focused and calm. Within an hour of meeting my son, Ian convinced him to accept treatment willingly. Thanks to Ian, my son is in treatment now and we will always be very grateful for the caring, calm way Ian and his team helped us.

Regards,

Brian
